

I believe K-LOVE serves me and my community in countless ways, but the one that stands out most is the positive, kind words and music it plays 24/7 for all to hear. When one has that kind of positive surroundings, it makes their day better, therefore, making all those whom they encounter better as well. There are so many who need the good news of K-LOVE. For some, it may be the only bit of hope they receive each day. For others, it may be the only time they hear there is someone who loves them. Most importantly, it may be the only time they ever hear there is a God who loves them unconditionally. Taking K-Love off the air would be a horrible disservice to thousands upon thousands. Please, for God's sake, keep our positive K-LOVE on the air, across the nation, across the world.
